

Fantastic estate with sea views

..... on 20.000 sqm plot in rural environment. This dream villa is surrounded by a beautifully landscaped pool and garden area and is also perfect for groups with children. The own children's playground, the big trampoline embedded in the ground and last but not least the own lawn football ground let children's hearts beat faster. The latter, however, do not disturb the noble ambience for celebrations without children. There is plenty of room for a ceremony in the garden. The patio is fantastic for a champagne reception and the large terrace is perfect for dinner. A wonderful place for an exclusive Mallorca wedding.
