Our experience, your advantage

For over 20 years we have been on site on the colorful Mediterranean island of Mallorca. Whether private celebrations, such as weddings and birthdays, or corporate events – our goal is to make our customers happy. We are at your side with our knowledge in the realization of your event.

We have already set up more than 1,000 events during this time, together with our fantastic service and cooperation partners. Precisely because we know that every event is unique, everything is planned by us individually, exactly according to your wishes.

Other countries, different customs

Here in Mallorca not only is another language spoken, but also the way of working is sometimes a little different. Therefore, in addition to many other services, our service also includes the complete request for quotations and invoice processing. We are happy to do this work for you and, of course, always inform you transparently about all processes.

The search for the right location

The choice of location for your event is often a matter of taste and must fit the occasion. That's why an on-site visit is the ideal way to find the right location for you that meets your exact requirements.

Your special event

We hope that you can sit back and relax on the day of your event and trust everything organizational in our experienced hands. That's why we are on site, keep all the threads together and ensure that your ideas and wishes become a complete success.
